PROPOSED RELOCA-  
 TION/EXPANSION OF  
 CENTRAL POST  
 OFFICE FACILITIES

City Clerk Reimche presented a letter which had been received from Walter F. Sanborn, Chairman, Central Lodi Improvement Committee stating:

It is requested that the City of Lodi express support for the retention of all post office facilities in downtown Lodi, advising both Post Office authorities and our Congressman regarding this policy position.

It is our understanding that postal authorities are considering the establishment of a "branch" post office facility outside the downtown area. It will probably be the position of postal authorities that insufficient land area is available downtown for necessary mail handling facilities expansion; that downtown will continue to be the "main" post office; and that mail service to Lodi will be improved by the projected new peripheral or suburban facilities.

It is our belief that the history of similar facilities establishment in other communities has resulted in the eventual downgrading of the downtown post office in these communities to "branch" post offices with limited services availability, service hours and personnel, despite initial postal authority assurances to the contrary. This scenario, if reenacted in Lodi, will have a significant adverse effect on the core of our community. It is estimated that as many as 1000 patrons may use the window service on a weekday, and there are 600 post office boxes in the downtown post office. Any steps which have the potential of reducing this traffic to the downtown area will reduce downtown retail trade immeasurably.

It is suggested that the strongest possible representations be made regarding this issue, and that the City of Lodi support expansion of the existing facilities at the present post office site.

April 15, 1980 continued

Mr. Sanborn was present in the audience and addressed the Council regarding the subject and responded to questions as were posed by the Council.

On motion of Councilman Pinkerton, Hughes second, Council supported the position of the Central Lodi Improvement Committee for the retention of all post office facilities in downtown Lodi area (which area perimeters had previously been set forth in a letter to Lee W. Stallard, Postal Department, Sierra District dated 1/20/78). Further City Clerk Reimche was directed to forward a letter confirming the City Council's action in this matter to the proper Post Office authorities, Congressman Shumway, and the Lodi District Chamber of Commerce.
